NERO's range of seamless tube is to ASTM A269/A213 and is available in 316/L material from 4mm to 42mm.

We keep all sizes in full random lengths (6 metres) and sell by the metre, this enables us to supply lengths as short as 1 metre long.

We can also offer an accurate cutting service on any of our tube to a tolerance of +/- 1mm.

Did you know we also keep Compression fittings to suit this tube?
