

NERO's range of Threaded Rod are made from 304 stainless steel and come in a range of metric threads ranging from M6 to M16.

Stainless Steel 304 is naturally corrosion and rust resistant, making it the standard for outdoor applications.

We also keep Welded & Seamless Nominal Bore pipe & tube to be used with the Threaded Rod when using a Bossed Pipe Ring and Backplate + cutting service to suit all your needs.

| CODE  | W<br>(METRIC) | L<br>(LENGTH) | KG   |
|-------|---------------|---------------|------|
| TRM6  | M6            | 1 MTR         | 0.18 |
| TRM8  | M8            | 1 MTR         | 0.28 |
| TRM10 | M10           | 1 MTR         | 0.50 |
| TRM12 | M12           | 1 MTR         | 0.72 |
| TRM16 | M16           | 1 MTR         | 1.31 |
